WELCOME TO THE RANGE OF COMMERCIAL FOOD SERVICE PRODUCTS FROM PANASONIC

Whilst you are probably aware of the Panasonic brand, what you probably didn't know is that Panasonic have been supplying commercial kitchens with products for over 50 years. We have been supplying international customers with a wide range of Commercial Food Service products, specifically designed to meet the needs of the Hospitality industry.

Based on our success globally including Europe, North America, Japan, China and other parts of Asia. Panasonic is now bringing some of these ranges to Australia for the Food Service and Hospitality market.

Panasonic has a long history of producing quality products and in 2018 celebrated our 100 year anniversary since foundation. This longevity has been built on the back of long relationships with the market and working pro-actively with our customers to build a better future.

The Commercial Food Services division has a dedicated B2B team that will manage the launch of an exciting new future for the Panasonic brand.

We will be talking to you, our customers, on expanding the range in the future and hope you enjoy using our products.

WHY PANASONIC

Panasonic prides itself on producing premium products that are built to last, essential in a commercial kitchen environment. We build-in unique design features, conduct extensive testing and manage strict quality assessment procedures, that have resulted in a solid track record of performing in any conditions. We don't compromise on quality.

To ensure a dedicated B2B approach, we operate from within the Hussmann Australia Pty Ltd (a Panasonic company), a market leader in the manufacture and supply of supermarket fridge and freezer cabinets across Australia. In Sydney we have over 17,000 sq metres of factory/warehouse where we keep a vast range of parts and extensive stock to support fast turnaround orders and speedy repairs. It is this network and warehousing capacity that enables us to maximise our reach for service and support.

We are dedicated to the long term position of Panasonic Commercial Food Service products, so much so that we offer up to 2 years warranty on parts for our commercial series refrigeration range, backed up with a nation-wide service team and a unique in-field warranty on our microwaves, where any issues or delays in repairing your microwave will be covered by a loan machine until the repairs can be completed!

So with this network and experience we promise to deliver: Quality, Innovation and Experience.

And we guarantee it!

Microwaves

- Range of Light, Medium and Heavy Duty Options
- Extensive Quality Control Testing
- Stackable and Compact
- Only Manufacturer of Both Magnetrons and Microwaves
- Internationally used across the Food Service Sector

MICROWAVE OVENS, WHICH ONE'S RIGHT FOR ME?

CAFES • BISTROS • RESTAURANTS

The ideal solution to cook, toast, bake, grill and reheat a wide range of fresh or frozen foods, such as toasted sandwiches, pastries or pizza, in fact anything needing a crisped, browned finish.

MICROWAVES WITH **INVERTER** TECHNOLOGY - DISCOVER THE DIFFERENCE

INVERTER V/S CONVENTIONAL MICROWAVES

Conventional microwaves repeatedly turn power on and off in order to maintain the power level. As a result, the food heats or defrosts unevenly or is even overcooked. Inverter microwaves, by contrast vary the power level leading to optimal cooking and defrosting results.

INVERTER MICROWAVES CAN USE UP TO 6.3% LESS ENERGY

With Inverter microwaves, because the power output actually varies, you can save up to 6.3% on energy consumption*, which is good for the environment and great for your wallet.

* Compared to NE-1853 (2650W Inverter microwave compared to 2630W LC type microwave). Excludes NN-SF574

LIGHT DUTY CONSUMER MICROWAVE OVEN

FLATBED INVERTER MICROWAVE

NN-SF574S

1000W MICROWAVE

EXTERNAL DIMENSIONS:
W529 x H326 x D422mm

CAVITY DIMENSIONS:
W354 x H230 x D338mm

CAPACITY: 27L

COMMERCIAL WARRANTY:
6 months

KEY FEATURES

- **FLATBED TECHNOLOGY**

Panasonic's Flatbed technology with no turntable, provides 31% more cooking area than a conventional turntable model and is super simple to clean up microwave messes. Plus you can also utilise the whole surface space meaning rectangular dishes will fit with ease.

- **INVERTER TECHNOLOGY
WITH PRECISE POWER CONTROL**

Softening hard food such as ice cream, chocolate and cheese proves easy with the dedicated 'melt & soften' function.

- **SIMPLE, MODERN DESIGN**

Featuring a stainless steel panel and frameless design the NN-SF574 integrates into any kitchen.

- **16 MENU OPTIONS**

With 16 Pre-programed menu options, the microwave will do the thinking for you and determine the time and power settings required - so all you need to do is press 'start'.
